★ Make-Up ★ Food Stains ★ Coffee

NEVER SCRUB YOUR SHOWER AGAIN

Neutralizes Noxious Odors — *Does NOT Mask*

KC 1000 is a water based organic and inorganic non-harmful cleaning compound. Its ingredients are water, grease cutters, detergent, builders, surfactants and emulsifiers. KC 1000 is USDA, EPA, and FDA approved. This unique cleaner was developed for and has been used by heavy industrial companies since 1983. Its performance exceeds any requirements for household usage, but it is safer and more environment friendly than cleaners purchased in supermarkets.

No animal testing was used in the research and development of this or any of our other products.

KC's *Kolor Code* © pre-marked spray bottles takes the guesswork out of mixing

Or

MIX IN YOUR OWN SPRAY BOTTLE (24 OUNCE):

HEAVY STRENGTH	½ cup concentrate, fill with water
MEDIUM STRENGTH	1/8 cup concentrate, fill with water
LITE STRENGTH	1 teaspoon concentrate, fill with water

GENERAL INSTRUCTIONS:

- 1) Use recommended dilution rate for best results and maximum economy.
- 2) Apply product, allow "**WORK TIME**".
- 3) **SCRUBBING** with appropriate scrubber may be necessary on stubborn stains and heavily soiled surfaces.
- 4) Heated surfaces or mixing product with hot water speeds the cleaning action of KC 1000. Heat **OVEN, BBQ GRILLS OR ENGINES** so that the surface being cleaned is 150° F. before beginning cleaning operations.
- 5) When deodorizing be sure to allow 10 minute "**SET TIME**" for KC 1000 to neutralize odors. Effectively destroys odors from pet stains, any body excrements, skunk odors...any noxious odors.

DIP TANK CLEANING METHOD

This method is used by industrial users of our products and can be modified for household cleaning chores. Fill a container with mixed KC 1000, put container on stove or hot plate. Heat to just below boiling and dip items to be cleaned. Works great for engine parts, jewelry, kitchen utensils, paint removal from small items like door plates or cupboard knobs in remodeling jobs or just about anything that is heavily soiled. Leave items in solution to soak until they are clean. Light scrubbing with brush or scrub pad may be necessary.

NOTE: When cleaning aluminum pots and pans leave in solution just long enough to clean—about 1 minute is all it takes.

HOUSEHOLD USAGE

HEAVY STRENGTH

★ Ovens ★ Bath Fixtures ★ Microwaves ★ Laundry Pre-spot (See Laundry Instructions) ★ BBQ's ★ Jewelry ★ Filthy Showers (first time cleaning) ★ Baked-On Pots and Pans ★ Lawn Equipment

Method to Clean Kitchen Range:

To remove baked on grease from ovens or grills be sure the surface you are cleaning is 150^o F. Clean grease buildup on kitchen range burner rings and drip pans quickly by using the dip tank method. See DIP TANK CLEANING METHOD.

Method to Clean Jewelry:

To clean jewelry mix HEAVY STRENGTH in a container. Heat mixed cleaner in microwave (without jewelry) remove container from microwave. Put jewelry in container and allow to soak.

Note: Do not clean opals, pearls or turquoise.

Method for First Time Cleaning Shower:

Spray HEAVY STRENGTH on entire surface to be cleaned (from bottom up), allow set time making sure surface stays wet. Scrubbing with appropriate medium scrub pad may be necessary on first time cleaning. Rinse. Maintenance cleaning of shower with MEDIUM STRENGTH will prevent soap film buildup in shower.

NEVER SCRUB YOUR SHOWER AGAIN

Note: Maintenance cleaning is spraying the shower 1 time per week for every person that uses the shower. **Example:** 1 person, spray once a week—2 people, spray twice a week, etc.

Method for Laundry Pre-Spot

May be used on any fabric that can be cleaned with water. Test for color fastness in an inconspicuous area. Spray stain with HEAVY STRENGTH, allow set time, and launder as usual.

Hint: Old stains—spray with HEAVY STRENGTH and allow to soak overnight before laundering. See Laundry Section for additional information. ***Silk Prespot:*** Use LITE STRENGTH to remove stains before sending to the Dry-Cleaners. Removes food stains and ink stains. See *“Laundry & Garment Care” on Page 5* for cleaning men’s ties.

MEDIUM STRENGTH

- ★ Carpet Stains
- ★ Pre-Spot
- ★ Kitchen Cabinets
- ★ Vinyl Floors
- ★ Insect Repellent
- ★ Walls
- ★ Patios
- ★ Blinds
- ★ Upholstered Furniture
- ★ Vinyl Furniture
- ★ General Cleaning

Method to Remove Stains from Carpet /Upholstered Furniture:

Apply mixed cleaner to spot, thoroughly saturate. Allow *set time* of 3 to 5 minutes. Remove stain and cleaner with absorbent cloth towels (Not paper) or extract with carpet cleaning machine. Spray area with clear water and extract moisture from carpet with carpet cleaning machine.

Note: Pet stains *set time* should be increased to 10 minutes. Old pet stains may need to be cleaned from back of carpet or carpet pad.

Important: Test all fabrics for color fastness in an inconspicuous area. Dye in color fast fabrics, carpets or upholstery will not be effected.

Method for Insect Repellent:

Apply MEDIUM STRENGTH on exposed skin or clothing before going outside.

For patios: Either spray or pour mixed cleaner on all patio or deck surfaces to repel flies, mosquitoes and other insects. Spray directly on flowers, garden or house plants.

LITE STRENGTH

- ★ Glass
- ★ Kitchen Cabinets
- ★ Mirrors
- ★ Windows
- ★ Wallpaper
- ★ Walls
- ★ Floors
- ★ Insect Repellent
- ★ Carpets
- ★ Upholstered & Leather Furniture

Method for Cleaning Carpets:

Add 2 ounces per gallon of **hot** water to your carpet cleaning machine tank. Clean carpets according to machine manufacture's instructions.

Note: A defoamer may be necessary the first time you clean your carpet with KC 1000 (removes old soap film). Carpets that have been cleaned with just KC 1000 **do not** need defoamer.

Note: Carefully mix LITE STRENGTH for window cleaning to avoid streaking. If streaking occurs add more water.

LAUNDRY AND GARMENT CARE

BOOST CLEANING POWER OF LAUNDRY DETERGENT

Reduce laundry detergent by 50%.

Add ¼ cup KC 1000 concentrate to **medium** laundry load.

Add 1/3 cup KC 1000 concentrate to **large** laundry load.

KC 1000 added to your laundry eliminates the need for hazardous Chlorine Bleach. **Never use bleach with KC 1000** as they will neutralize each other..

HEAVY STRENGTH

★ Pre-spot washable color fast fabrics.

★ Pre-spray athletic shoes before washing.

★ Spray old stains, allow to set overnight
before laundering

MEDIUM STRENGTH

★ Pre-spot washable Silk ★ Synthetic Leather Jackets ★ Ultra-Suede

Note: After pre-spotting silk, dry-clean as usual and be sure to test for color fastness.

Method for Cleaning Men's Ties

Hang tie over bathtub or sink so drips are contained. Saturate entire tie with MEDIUM STRENGTH, even parts that are not soiled. Continue to saturate until the water drips from the tie. Allow 3 minute set time. Rinse tie with clear water to remove KC 1000 and dirt residues. Allow the tie to dry undisturbed

IMPORTANT: Do not twist or wring tie. If stain remains—repeat

LITE STRENGTH

★ Leather Garments ★ Delicate Silk Pre-Spot ★ Vinyl Garments

Note: Spray and wipe immediately.

Method for Delicate Washables

Fill sink with cool water, use ½ cup KC 1000 concentrate per gallon of water. Soak garment until clean, roll garment in cloth towel to remove excess moisture. Lay garment flat to dry

{Sweaters, Lingerie, Gloves, Scarves, other fine washables}

AUTOMOBILES, RV'S, & BOAT DETAILING

HEAVY STRENGTH:

- ★ Engines ★ Whitewall Tires ★ Fender Wells ★ Removing Tree Sap
- ★ Tar ★ Mineral Deposits ★ Pet Odors ★ Heavy Deodorizing
- ★ Boat Bottoms

MEDIUM STRENGTH:

- ★ Vinyl Interiors ★ Exteriors ★ Canvas Tops ★ Carpet Spotting
- ★ Light Deodorizing ★ Auto Interiors ★ Boat Decks ★ Fishing Gear

LITE STRENGTH:

- ★ Glass ★ Windshield Solution ★ All Plastic Windows
- ★ Carpet Cleaner

Refer to “HOUSEHOLD USAGE” for cleaning methods.

CONTINUAL CLEANING OF BOAT BILGES

Add 1 pint KC 1000 concentrate for every 50 gallons of water.

DEODORIZING OF RV'S HOLDING TANKS

Add 1 cup KC 1000 concentrate to 50 gallon holding tank.

MOTORCYCLES, BICYCLES, ATV'S

HEAVY STRENGTH

- ★ Engines ★ Fuel Tanks ★ Chains

MEDIUM STRENGTH

- ★ Seats ★ Tires ★ Frame

LITE STRENGTH

- ★ Windshields ★ Chrome ★ Plastic

Note: See “DIP TANK CLEANING METHOD” for parts cleaning.

GARAGE PATIOS POOL/HOT TUB AREA LAWN EQUIPMENT/FURNITURE

HEAVY STRENGTH

- ★ Degreasing Tools ★ Engines ★ Lawn Equipment
- ★ Deodorizing Garbage Cans ★ Oil Spots on Concrete ★ Algae & Moss
from Sidewalks/Patios ★ Body oils from Pool Areas
- ★ Hot Tub Filters ★ Tile ★ Hand Cleaner

Note: Do not leave HEAVY STRENGTH on Asphalt—rinse with water after removing oil spot.

MEDIUM STRENGTH

- ★ General Clean-up ★ Wood Decks ★ Wood/Tile Roof Shingles
- ★ Painted surfaces on Lawn Equipment ★ Patio Furniture
- ★ Body Oils from Hot Tubs ★ Pool/Hot Tub Covers
- ★ Ponds/Fountains

Note: Do not use KC 1000 concentrate on composition roof shingles

LITE STRENGTH

- ★ Polish for any shiny surface like stainless steel appliances

HANDY MAN HINTS

- 1) Add 1 ounce KC 1000 concentrate to 1 gallon paint before applying, for a smoother finish.
- 2) Add 1 ounce KC 1000 concentrate to 1 gallon mixed sheetrock mud, Fixall or Concrete. Aids in mixing, eliminates lumps.
- 3) Spray **MEDIUM STRENGTH** on wallpaper to speed removal.
- 4) Use **HEAVY STRENGTH** to clean paint brushes, rollers, and spray equipment.
- 5) Use **HEAVY STRENGTH** to remove paint splatters, even after drying on carpets and other surfaces.
- 6) Use **MEDIUM STRENGTH** for paint prep, interior and exterior.
- 7) When refinishing furniture, clean build-up of wax and dirt from surfaces with **MEDIUM STRENGTH** before finish removal.

Note: Refer to “**DIP TANK CLEANING METHOD**” for quick removal of many layers of paint on door plates, knobs, hinges, etc.

**KEEP THIS AND ALL CLEANERS
OUT OF REACH OF CHILDREN!**

PRECAUTIONS & FIRST AID: Although this product is extremely safe. Avoid contact with eyes. In case of eye contact, flush with water for 15 minutes. If irritation persists, call a Physician. In the unlikely event a large quantity is ingested, feed large quantities of milk or water and induce vomiting. Call a Physician.

GIVE THIS A TRY

LITE STRENGTH KC 1000 in place of dangerous pesticides on house plants, gardens, kitchen insects, flies, fleas and ants.

MEDIUM STRENGTH KC 1000 in place of flea dip for pets.

MEDIUM STRENGTH KC 1000 in place of insect repellent.

MEDIUM STRENGTH KC 1000 as a pet shampoo.

LITE STRENGTH KC 1000 as a vegetable and fruit wash.
