KC 1000® & ECO 2000® Kolor Code Spray Bottles

Spray bottles are pre-marked for easy measuring and mixing of **KC 1000®** or **ECO 2000®** with the correct amount of water. Red for heavy cleaning, Green for medium cleaning and Blue for light cleaning. Ideal for household chores and individual use.

Available In Sets Of 3–32 Oz. Spray Bottles (1 Red, 1 Blue, 1 Green), 10/1 Set Cases

Pump Up Sprayer

A hand-held compressed air sprayer, 2 Qt. capacity, the nozzle adjusts from fine mist to jet stream. Chemical

resistant mechanisms keeps this pump working for years. Replacement nozzles are available. Eliminate carpal tunnel problems caused by trigger sprayers.

Sha-Mop

This innovative mop replaces string mops with replaceable 100% cotton terrycloth bonnets. Your mop is always clean. After mopping simply launder the mop head. Handles swivel for hard-to-reach areas. Great for working on walls, ceilings, windows as well as mopping floors. The mop head has a soft scrubbing fiber pad for maximum cleaning with minimum effort. Loosens dirt, grime and rinses clean. It's like using a scrub brush on a mop. This innovative mop is fantastic for the healthcare industry because the mop head is removed when soiled instead of rinsed in a mop bucket where the chance for bacterial contamination occurs.

ECO Cloths

GREEN— Knitted dusting cloth with double-sided loops for cleaning all kinds of surfaces. Specially developed for wet or dry dusting.

YELLOW— Knitted all-purpose cloth with double-sided loops for cleaning all kinds of surfaces. Specially developed for removing heavy amounts of loose and in-grained dirt.

BLUE— Suede glass cloth for cleaning all kinds of surfaces. Specially developed for cleaning windows, mirrors, faucets and other similar surfaces.

RED— Knitted restroom cleaning cloth specially developed for cleaning counter tops, porcelain, tile, walls and faucets. This cloth can be used with disinfectants.

ECO Mops

GRAY— This 100% micro-fiber duster should be used with no cleaners. Simply lay the cloth on the floor, gray side down, and place your mop holder with its Velcro side on top, insert the handle, and away you go. This innovative dust mop removes dust, hairs, and lint from any hard surface, holding the dust until laundered. An excellent tool for the healthcare industry or for clean-rooms. Mop heads are available in varying lengths.

BLUE— This mop is for damp mopping by either wetting the mop head or by applying water to the floor. Mixed disinfectant may be used in hospital and care centers where use of disinfectant are recommended. Mop heads are available in varying lengths, from 12" to 36" for big jobs.

What Is Micro-Fiber Technology ?

KC Products, Inc. is a leader in providing environmentally safe, user-friendly cleaners and cleaning tools that are innovative, safe, effective and time-saving. Our ECO Cloths and ECO mops are another addition to our innovative product line. The micro-fiber technology has been imported from Sweden. The development of this amazing fiber was funded by the Swedish government to eliminate the use of window cleaners and other light cleaners in hospitals where the use of cleaners bothers patients.

At the heart of the micro-fiber cleaning system these specially developed fabrics contain threads that are split into micro-fibers, producing a high density material with a large surface area. This affords enormous absorption and cleaning performance. Additionally, when the micro-fiber material is dry, the static electricity in the fiber contributes to the attraction of dust and dirt. When wet, the capillary force takes over.

ECO cloths and mops do light cleaning and dusting but are not recommended for heavy soils or grease cleanup. Laundering of these cloths are good for 500 washings or about 5 years use.

... Food Services, Restaurant, Janitorial Cleaners

KC 1000[®] Concentrate

USDA A-1 Approved on all surfaces

The most efficient biodegradable chemical formulation available for industry-wide cleaning applications. This non-caustic, non-butyl-based cleaner is effective enough to clean ovens, grills and bail out fryers. Virtually cleans all surfaces in food service areas without noxious fumes. Yet, is still safe on hands and surfaces.

*Available In 12/1 Quart Case, 4/1 Gallon Case,
5 Gallon Containers, 55 Gallon Drum, Tote*

ECO 2000[®]

USDA A-1 Approved on all surfaces

A new generation cleaner, based solely on cleaning agents derived from naturally occurring renewable, rapidly biodegradable resources. This Green Cross Certified industrial cleaner set the national standard that all cleaners must meet to acquire this prestigious certification. This non-phosphate cleaner exceeds current EPA standards in this country and around the world. The performance matches our widely recognized **KC 1000[®]** multi-purpose cleaner.

*Available In 12/1 Quart Case, 4/1 Gallon Case,
5 Gallon Containers, 55 Gallon Drum*

KC's Citrus[®]

USDA Approved

This product is extremely effective on grease buildup, mastic removal, gum removal, and hood vent cleaning. Grease buildup in Oriental kitchens is removed quickly, eliminating tedious hand scraping.

*Available In 12/1 Quart Case, 4/1 Gallon Case,
5 Gallon Containers, 55 Gallon Drum*

Gel Grill and Oven Cleaner[®]

A heat-activated emulsified, non-caustic biodegradable grill and oven cleaner. Eliminates caustic chemicals currently used in grill and oven cleaner formulations. The viscosity of **Super Gel[®]** allows the cleaner to cling to oven roofs and racks ensuring more even and effective cleaning.

*Available In 12/1 Quart Case, 4/1 Gallon Case,
5 Gallon Containers*

The Carpet Solution[®]

A completely non-toxic odorless professional quality stain remover. This product is safe for use on all colorfast carpet and upholstered furniture. Removes grease, wine, pitch, tar, chocolate, pet stains and odors, vomit, urine, ink, shoe polish, rust, blood, paint and gum.

*Available In 4/18 Oz. Case, 12/1 Quart Case,
4/1 Gallon Case, 5 Gallon Containers*

KC's Slave[®]

USDA A-1 Approved on all surfaces

This product is used in food processing plants including meat packing. Heavy duty floor stripping, meat smokers, grease trap and drain cleaning chores are done quickly and safely. **KC's Slave[®]** is an excellent wax stripper that will remove heavy build-ups of even metallic floor finishes.

*Available In 4/1 Gallon Case, 5 Gallon Containers,
55 Gallon Drum*

KC's Water Stain Remover[®]

Removes etched-in water spots and mineral deposits like lime scale, calcium, oxidation, iron, alkali, mildew, mold, soap scum, paint and salt spray. Removes stains from bathtub enclosures, sinks, toilets, fixtures, patio, pool areas, stove tops, oven grills, Corian, anodized plating, brass, copperware, boats, R.Vs, etc. Works without using gritting, course, pumice-type abrasives. It is also safe on hands.

Available In 16 Oz. Containers

KC's Sealant[®]

For long lasting protection of surfaces where water and mineral stains are a problem. Use to protect surfaces after first cleaning with water stain remover. Apply with slightly damp towel. Use sparingly, 1 drop will seal 8-9 square inches of surface. Buff with a dry towel to a high gloss shield that will resist any water stains for 6 months to 1 year. Sheds water fast, anti-fog-static-mist control, penetrates and seals immediately. Use on bathtub enclosures, shower areas, windows, mirrors and other surfaces not damaged by silicone.

Available In 4 Oz. Containers
